

PUBLIC NOTICE

TOWN OF HAMPTON FALLS

Mosquito Control

The Mosquito Control program begins the week of April 15, 2019 in the Town of Hampton Falls. Crews from Dragon Mosquito Control will be checking swamps, salt marshes, woodland pools, ditches, storm drains and other shallow, stagnant water for mosquito larvae. When mosquitoes are found, the following insecticides may be used:

VectoBac (*Bacillus thuringiensis israelensis* 2.8%)

Natular (spinosad 2.5%)

AquaBac 200G (*Bacillus thuringiensis israelensis* 2.86%)

Fourstar MBG (*Bacillus thuringiensis israelensis* 3.0% & *Bacillus sphaericus* 3.0%)

VectoMax FG (*Bacillus thuringiensis israelensis* 4.5% & *Bacillus sphaericus* 2.7%)

CocoBear MLO (mineral oil 10%)

BVA 2 Mosquito Larvicide Oil (mineral oil 97%)

If Eastern Equine Encephalitis or West Nile Virus is found in or near Hampton Falls, then emergency spraying may be conducted using one of the following products:

Cross Check Plus (bifenthrin 7.9%)

Permanone (permethrin 10.0%)

Emergency spraying may be conducted at the following locations:

Town Common

Lincoln Akerman School

Governor Weare Park

It is impossible to predict if emergency spraying will be necessary. The spray schedule is based upon mosquito surveillance data, disease test results and weather conditions. Further communication will be given if emergency spraying is going to take place.

Residents who do not want their wetlands treated may use our No-Spray Registry online at www.dragonmosquito.com/no-spray-registry or write to Dragon Mosquito Control, P.O. Box 46, Stratham, NH 03885. Be sure to include your name, physical address, phone number, a description of your house and acreage.
